TO WHOM IT MAY CONCERN

I wish to confirm that I visited the International Yoga Therapy Camp in September, 1994 organised by the Ackbar Yoga Movement in company of the Representative of the UNDP and WHO.

I was very pleased to hear from the participants of the benefit obtained by complementary treatment of various diseases such as : Diabetes, Asthma, High Blood Pressure, Depression and others using Yoga Therapy.

The Ackbar Yoga team composed of Trilo Gujadhur, Shiksha Gujadhur, Jurgen Grebner and Ilona Melcher from Germany deserves to be encouraged for organising such future therapy camps.

I wish them all success.
